Dear FCC:

As a US Resident and Taxpayer I expect your organization to protect citizens by allowing fair and reasonable competition.

Sattelite radio allows for the free exchange of information and provides programming not available eslewhere. The reason I purchased XM satellite radio is because I am not satisfied with my local stations and programming.

Please support free and reasonable competition by to rejecting the NAB's petition 04-160.

Please support XM Radio's ability to provide the kind of programming that US Taxpayers deserve.

Sincerely  
Gary P. Empric
